CREATE-A-PACKAGE

You get to build your own package! This gives you the best value and variety as it is custom tailored for you, by you. Use as many poses as you like, simply choose at least one item from each step.

STEP ONE

Something beautiful for your home

Charleen's wall portraits are retouched to perfection, then professionally printed and coated with a gel containing a UV inhibitor to prolong the life of your portrait. Finally, they are dry-mounted and ready for framing. The Trio Collection is a great way to showcase the different styles and looks of your loved one. This collection is beautiful over a sofa, in a hallway or over the mantel.
